

Updated COVID-19 Protocols for Vivint Arena Events

SALT LAKE CITY (January 21, 2022) – Following today's resolution approved by the Utah Legislature to overturn the mask mandate in Salt Lake and Summit counties, Vivint Arena will follow these COVID-19 health and safety protocols for all events:

Face coverings are no longer required for indoor events at Vivint Arena, effective immediately, for individuals age 12 and older. However, the use of masks remains a strongly recommended practice as an effective health and safety protocol for guests attending Jazz games, concerts and shows at Vivint Arena.

Per NBA health and safety protocols, masks are still required for all individuals in courtside seats within a 15-foot radius surrounding the basketball court.

All guests attending any event at Vivint Arena must present proof of full vaccination or a negative COVID-19 test (taken within 72 hours of the event time) to gain access to the arena. Guests under the age of 12 will be permitted to enter the arena if they wear a mask at all times.
